PROFESSIONAL SUMMARY

Full-stack software engineer with over two years of experience building backend APIs, responsive web applications and mobile-first products. I work mainly with TypeScript, React, Next.js, Node.js and Python. My projects include attendance systems, commerce products, security middleware and pharmacy software designed to work well on unreliable networks.

TECHNICAL SKILLS

Frontend: TypeScript, Next.js, React, Tailwind CSS, TanStack React Query, Progressive Web Apps (PWA), CapacitorJS
Backend: Node.js, NestJS, Express.js, RESTful API Design, Microservices, Python, Django
Database & State: PostgreSQL, Supabase, MongoDB, Redis, BullMQ, Data Modeling
DevOps & Tools: Docker, Git, GitHub Actions, CI/CD, Postman, AWS S3, Object Storage

PROFESSIONAL EXPERIENCE & KEY PROJECTS

Smart Classroom Attendance (Capstone Project) — Lead Full-Stack Engineer

2023 – Present

- Built responsive interfaces with Next.js, React and Tailwind CSS for students using low-end devices.
- Designed the backend and data models with PostgreSQL and Supabase.
- Built attendance checks using GPS location, Bluetooth proximity and biometrics.
- Worked with academic staff to turn their needs into dashboard features.

Storely (Multi-Vendor Marketplace) — Full-Stack Software Engineer

2023 – Present

- Built storefront and vendor dashboards with TypeScript and Next.js.
- Handled API data and caching with TanStack React Query.
- Designed database tables and background jobs for vendor onboarding and stock updates.
- Improved reliability through testing, code reviews and work for slow network connections.

SecureCipher & Card Validator API — Backend Engineer

2022 – 2023

- Built backend APIs with NestJS, Node.js and TypeScript.
- Added EdDSA and ECDH encryption to protect API communication.
- Packaged the application with Docker and automated deployments with GitHub Actions.

PharmaLoop (SaaS) — Software Engineer (Collaborator)

2023 – Present

- Worked with the team on inventory and billing features using React, TypeScript and Python.
- Connected Paystack and WhatsApp Cloud API, and added background jobs for notifications and reports.

EDUCATION

Nnamdi Azikiwe University, Awka — Bachelor of Electronic and Computer Engineering

November 2021 – September 2026

Focus: Software Engineering Fundamentals, Systems Architecture, and Database Design
